

# Fearless

Melissa Ferrick

Put my hand over yours  
I move it over your heart  
I feel the magnet pull  
Then I push off  
Under water  
Hey I'm in over my head  
Have you ever been in  
In over your head

So I put you up on my shelf  
I'll dust you off when I get home  
What's the difference any way  
We're both always alone  
Then you tell me you can love me  
Better than anybody else  
I said I apologize  
I've got to be by myself

Ya I let go  
You wanna call me a name  
I'm fearless  
Hey ya I let go

Put me thirty-six thousand feet  
Ya up in the air  
I'm a single engine plane  
Come on put me up there  
Watch me catch a jet stream  
Shut off the engine  
And just glide  
Watch me glide

Ya I let go  
You wanna call it a name  
Call it fearless  
Oh ya I'm going to let go  
You want to call me a name  
It's fearless

Put me up on a stage  
In front of people I don't know  
Ya put me up on stage  
If you really want to watch me go  
Sing from my soul  
Sing from my  
With the time I've got left here  
I figure I might as well  
Sing from my soul  
Sing from your soul  
With the time you've got left  
Sing from your soul

Ya come on and let go  
You wanna call me a name  
Fearless
