

# I Still Love You

Melissa Ferrick

Yeah I thought this was it  
True love had arrived  
So I fell in  
But what a surprise  
And I bought you a ring  
And I asked you to wear it  
So when I found it on the bathroom sink  
I shoulda known I was in for it

How do I release this?  
And how do I let you go?  
How do I mend my heart when I feel so low?  
And how do I talk to you without crying?  
And how do I let you go when I still love you?

I still love you

So I don't know if I can be just your friend  
Damn you for not trying  
And fuck you for standing there smiling  
I know what it's like to not be able to feel  
And I know what it's like, yeah  
To just kiss someone and make them fall in love with  
you  
And then you walk away  
To just make somebody come a little closer  
So you can push them away...

How do I release this?  
And how do I let you go?  
How do I mend my heart when I feel so low?  
And how do I talk to you without crying?  
And how do I let you go when I still love you?

I still love you...
