

## Let's Fly

Melissa Ferrick

it's three am  
I got the moon in my window  
I got the hmm hmm hmm 55 to lakeshore drive  
and your city stretches  
but I am breathing, I'm anticipating feelings  
and I'm going the motions  
of how I plan to save you, '  
I'm gonna save you from yourself  
but I need ya, come on and open up your arms now baby  
and climb on my back  
and give me what you can for now  
and I'm going to give you, I'm going to give you, I'm  
going to give you  
three times that  
cause you are what I've been waiting for  
yeah I dreamt your face beautiful years ago  
and I promise I'll never leave your side  
so come on baby, let go and let's fly  
yeah you are in and out and you stop when you open your  
mouth  
and you want but refuse to take  
all this love I've been putting on your plate  
cause I'm not scared and I am not afraid  
so deny me all you want baby  
cause the truth is I see myself in your eyes

and I need ya to come on and open up your arms now baby  
and climb on my back  
and give me what you can for now  
and I'm going to give you, I'm going to give you, I'm  
going to give you  
three times that  
cause you are what I've been waiting for  
yeah I dreamt your face beautiful years ago  
and I promise I'll never leave your side  
so come on baby, let go and let's fly  
let's fly  
let's fly
