

# One Night Stand

Melissa Ferrick

Guess you got my M.O. cause you never called me back  
Yeah you always leave me hanging baby just enough to set me in your trap  
I'm thinking you could be it, yeah I'm thinking you're the one  
And I'm left here to wonder what it is that I have done  
To deserve this kind of blankness, There's no response at all  
Does it mean you're afraid to love me  
Or does it mean that you don't feel anything at all  
Do you feel anything at all

Go Ahead tell your friends we had a one night stand  
Tell em you were out of your head, Tell the you never made it to my bed  
Tell them whatever you want to make you feel OK  
But don't try to tell me you didn't look in my eyes and say  
Don't let go of me

So ya got me thinking baby, yeah I'm thinking way too much  
You know you're driving me crazy with this 'I don't wanna see you' stuff  
So cmon give me something, something to go on  
Cause I know somewhere inside you  
you must believe there is a little something going on  
There's a little something going on

Go Ahead tell your friends we had a one night stand  
Tell them you were out of your head, Tell the you never made it to my bed  
Tell them whatever you want to make you feel OK  
But don't try to tell me you didn't look in my eyes and say  
Don't let go of me  
Don't you dare let go of me

Baby it's what it is  
And you put the truth on paper  
When you sent me that letter  
You were asking for help  
And so I tracked you down in Vegas  
And I sent you flowers  
Since then I haven't heard from you for hours

So, Go Ahead tell your friends we had a one night stand  
Tell em you were out of your head, Tell them you never made it to my bed  
Tell them whatever you want to make you feel OK  
But don't try to tell me you didn't look n my eyes  
Don't tell me you didn't look in my eyes ...and say  
Don't let go of me

So I have resorted to finish you through song  
Your face is with me even when I leave the TV on  
So I hope you get some sort of satisfaction from the mess I am in

And I hope you never come running back to me again
