

One Year

Melissa Ferrick

After 4 months of talkin'
Without knowing how we'd kiss
I was holding on with everything
I changed my clothes three times before I left
Because I'd never been to Brooklyn
Except once in '91
And for some strange reason
I knew this wouldn't be the last
late night drive from Boston
You have my heart
And nothin' is gonna get in our way
So I pulled over
You stood up
And you wouldn't stop talkin'
So I put my finger on your mouth
And you took me to the park and we laid in the grass
touchin' toes
watchin' the kids play
red light, green light
red light, green light
You have my heart
r And nothin' is gonna get in our way
So after one year
So much has changed
All I thought I needed
Has been erased
Cause you have filled a space
That I never knew I had
Yeah, you make me feel
like the only show in town
You have my heart
And nothin' will get in our way
I said nothin' is gonna get in our way
Nothin' is gonna get in our way
