

Street Light

Melissa Ferrick

What did you say?
What ever I want
This is so easy
This love in my life
But this isn't real
We're just making it up
Over and over guilty
Is what I hear in my head

You are in fear
And I'm in a bubble
We stay together
Cause we're always apart
But I'm getting good
At balancing trouble
And you're getting good
At looking like
You want to take me back

So dress me up
Take me out to dinner
And I will stare at my plate all night
Lay me down
Tie me to your bedpost
And I will pretend
This is what I like
But don't you dare
Start seeing someone else
Or I will come
Stand outside your house
See me there
I'm underneath the streetlight

Satisfied no
With love when I'm in it
The smaller the hill
The more I want to push it
The closer to the truth you get
The more I want to disprove you

So dress me up
And take me out to dinner
And I will stare at my plate all night
Lay me down
Tie me to your bedpost
And I will pretend
This is what I like

But don't you dare
Start seeing someone else
Or I will come
Stand outside your house
See me there
I'm underneath the streetlight

So what did you say
Whatever I want

Maybe that's the problem
