

I Know Your Love Won't Let Me Down

Melissa Manchester

I don't need no song to sing
I don't need no violin
I don't need much of any old thing
And as long as I got you here I keep on

Because I know your love won't let me down
I took my time and I shopped around
Baby what you've got is the best I've found
I've been here far too long to walk out now

Lost my heart, I never knew
I didn't need what I couldn't use
All I ever really wanted was you
And as long as I got you here I keep on

Because I know your love won't let me down
I took my time and shopped around
Baby what you've got is the best I've found
I've been here far too long to walk out now

I keep on puttin' myself back where I belong
Give you love to make you strong
You got a friend you can depend on me
And as long as I got you here I keep on
Long as I got you here I keep on

Because I know your love won't let me down
I took my time and I shopped around
Baby what you've got is the best I've found
I've been here far too long to walk out now

Oh, the feelin'
Is gonna get the best of me
Oh, the feelin'
Is gonna get the best of me
Oh, the feelin'
Is gonna get the best of me

Because I know your love won't let me down
I took my time and I shopped around
Baby what you've got is the best I've found
I've been here far too long to walk out now
Because I know...
