

# It's All in the Sky Above

Melissa Manchester

When the man don't give me the food I need  
The fuel to feed the fire  
I'd gladly turn my back on him  
And lift my hopes up high

We're so busy talking  
Ah but talk don't mean too much to me  
What you say ain't what you feel  
And it's all confusing me

Who do you believe in tell me why  
Won't your heart sing to me  
Maybe we should waste the day  
Take a walk outside and say

It's all in the sky above  
It's all in the earth below  
Everything you've heard about  
Everything you need to know  
It's all in the friends you love  
And all of the love you keep  
Find your own sweet harmony  
Lullaby yourself to sleep

Some folks go out dancin'  
Baby we can dance our life away

But I'd hate to stay out late  
Just to oversleep the day

I found the earth below  
I found me the sky above  
Everything you've heard about  
Everything you need to know  
I found me the friends I love  
Give'em my love to keep  
Found my own sweet harmony  
Lullaby myself to sleep

When the man don't give me the food I need  
The fuel to feed the fire  
I'd gladly turn my back on him  
And lift my hopes up high

It's all in the sky above  
It's all in the earth below  
Everything you've heard about  
Everything you need to know  
It's all in the friends you love  
And all of the love you keep  
Find your own sweet harmony  
Lullaby yourself to sleep
