

## Just You And I

Melissa Manchester

When your heroes go up in a puff,  
And there's not enough to hang on to  
And the ones you would count on to call  
They all fall down all around you  
Then you've got to believe there's more  
It is the reason we're put here for  
It's just you and I  
When the legends' over - and we have just begun  
We can look to each other to see us through  
Just you and I  
When a miracle's long overdue  
And there's no one who's gonna come to guide you  
So you keep looking up to the sky - wondering why  
The clouds won't hide you  
At the times when you're most afraid  
That is the reason why dreams are made  
It's just you and I  
When the legend's over - and we have just begun  
We can look to each other to see us through  
Just you and I
