

# Night Creatures

Melissa Manchester

Creepin' in the dark  
I feel the animal taking hold of me  
Savage heart, the beast inside of me  
I'm gonna set it free

Tonight, there's a magic in the air  
The street comes alive  
Full moon on the rise, they must be near  
I feel their eyes

I can hear the night creatures calling  
Asking me to step into the dance  
Spirit of the wild, take my hand  
Make it last 'till morning light

They feed on the beat  
Excite the atmosphere with a strange kind of rhythm  
Feel the heat, I sense them everywhere  
Now my eyes can see (Shadows)

Shadows on the wall, trick of the light  
Danger in the air  
Midnight, they're alive and getting near  
I feel their eyes

I can hear the night creatures calling  
Asking me to step into the dance  
Spirit of the wild, take my hand  
Make it last 'till morning light

And the flame that's inside of me  
Keeps on calling me to go (Calling me)  
Casts a spell, let it carry me  
Let it echo through my soul, I'm not alone

(Night creatures)  
(Night creatures)  
(Night creatures)  
(Night creatures are calling)  
(Night creatures)  
(Night creatures are calling)

I can hear the night creatures calling  
Asking me to step into the dance  
Spirit of the wild, take my hand  
Make it last 'till morning light  
I can see the night creatures stalking  
Begging me to step into the trance  
Mysteries of the dark make me dance  
Set me free 'till morning light  
I can hear the night creatures calling  
Asking me to step into the dance  
Spirit of the wild, take my hand (Night creatures calling)  
Make it last 'till morning light  
I can see the night creatures stalking  
Begging me to step into the trance  
Mysteries of the dark make me dance

Set me free 'till morning light
