

We've Got Time

Melissa Manchester

We don't have to push it no more
We don't have to rush it no more
And as long as we keep an open line
We've got time

We've been chasing all the ancient shadows
But a good ship doesn't need a paddle
With a full sail and the north wind from behind
We're gonna get there
I can feel it and it's growing stronger
Though it may take just a little bit longer
To the center
Stake a claim on peace of mind, because

Keep it simple, but you got to keep it going
And in the dark times you got to keep it flowing
Come tomorrow jubilation's shining through
We're gonna get there because

We don't have to hurry no more
We don't have to worry no more
And as long as we keep an open line
We've got time

Haven't we both gone far enough
Fast enough
To see we're going nowhere
Take me there
...

We've got time...
