

You Know I Love You Baby

Melissa McClelland

I'm just the same as you
I'm just the same as I was
You look like me, I look like hell
I hear you're doing twice as well
You look like me, I look like hell
I love everything about you
You love everything, but me
I never got it right
At least I tried
To get it right
You know I love you, baby
You know I love you, baby, yeah
Before this love, it stops
Let's call the whole thing off
Your baby's on its way
I guess I meant to tell you
On that day out by the lake
I kept thinking by mistake
Couldn't look you in the eye
You know I love you, baby
You know I love you, baby, yeah
Before this love, it stops
Let's call the whole thing off
I meant to stay a while
I meant to stay the night there
But your breath was much too sweet
Your arms too tight round me
Your body too warm
You know I love you, baby
You know I love you, baby, yeah
Before this love, it stops
Let's call the whole thing off
