

# Always Need You

Melissa Polinar

I've made up my mind  
To get tangled up with you  
Even though I'm undeserving  
More than the sunshine  
Up in the great big blue  
You satisfy my every yearning

You're like an arrow out of nowhere  
You hit the center of my heart

Your love is good  
Your love is real  
It captures everything that I feel  
I need you now  
I needed you then  
And I will always need you  
Always need you... ohhhh... yeahh...

Now that I'm here  
Everyday is new  
I'm not going to look any longer  
It's all so clear  
Everything pales to you  
Oh, your love just makes me stronger

Like a shadow tied to your heel  
I'll follow wherever you go

Your love is good  
Your love is real  
It captures everything that I feel  
I need you now  
I needed you then  
And I will always need you

I wanna climb to the top of a hill somewhere  
And scream at the top of my lungs  
The rain may come but I don't care  
I'm gonna keep tellin' everyone that...

Your love is good  
Your love is real  
It captures everything that I feel  
I need you now  
I needed you then  
And I will always need you

Your love is good...  
Your love is real...  
It captures everything that I feel...  
I need you now...  
I needed you then...  
And I will always need you...  
Always need you... ohhhh... yeahh...
