

## Dive

Melisses

Laying in a dark room in the silence  
Lying on a bed of lies  
In the black of night  
The shadows arise

This is where you left without a warning  
This is where I spend my nights  
Reliving the moments it keeps me alive  
Reliving the moments it keeps me alive

Let me dive into your arms  
Let me breathe into your heart  
Tear the loneliness apart

Let me dive into your arms  
Let me breathe into your heart  
Tear the loneliness apart

Let me dive into your arms  
Let me breathe into your heart  
Tear the loneliness apart

Laying in a dark room in the silence  
This is where I'm left behind  
This is where you lost the dreams  
You won't find

This is where we woke up every morning  
This is where I spend my nights  
Reliving the moments it keeps me alive  
Reliving the moments it keeps me alive

Let me dive into your arms  
Let me breathe into your heart  
Tear the loneliness apart

Let me dive into your arms  
Let me breathe into your heart  
Tear the loneliness apart
