Lover's Fall

Melisses

With a pair of blue jeans
I'm packing my dreams
And my bag's got a hole
Felt you like a disease
Baby, no one can ease
That pain in my soul

Don't even try, you'll lose it all
You said lovers die when they fall
Don't even try, you'll lose it all
You said lovers die when they fall
In love

And every time I fool around
Your face gets on my way
And there's nothing more to say
And I'm leaving

And every time I go to bed
I get no sleep at all
And there's no one I can call
And I know I'll never fall
In love, yeah

Got my heart in my hands
My cold feet never dance
So I'm crawling to your door
Baby, I know you don't
Care 'bout me at all
But I'll just throw it on the floor

I know I shouldn't try I'd lose it all
You said lovers die when they fall
If I ever try I'd lose it all
You said lovers die when they fall
In love

And every time I fool around
Your face gets on my way
And there's nothing more to say
And I'm leaving

And every time I go to bed
I get no sleep at all
And there's no one I can call
And know I'll never fall
In love, yeah
In love, yeah
In love
