

Blue Summer

Melody Club

another day, another week
and I wish you'd stay with me for the summer
another day oh you've been gone for far too long
it feels like forever, it feels like forever

summer returning
and I will be awake tonight
blue summer
I'm waiting, still waiting
all through the summer
and it's shining everywhere I go
blue summer

another day, another week
and it's been so long, I wish you'd remember
another day, when you return, I close my eyes
and dream we're together, I dream we're together
