

Cats in the Dark

Melody Club

when everybody has gone away
and there is no one you can lean on
when all you've got is yesterday
I'm going to be the one you can rely on

well you know, you know that
we're going to glow like cats in the dark
when things have gone too far
cats in the dark
I'll remind you of what we are

when your friends are turning
and your heart is burning
and the crossroads lead to where we are
when the road is turning
and your heart is burning
we just keep on shining in the dark

and when you're beaten to the ground
and everything feels cold and hollow
you know I'll always be around
wherever you go my heart will follow
