

Fever Fever

Melody Club

Struck down by a prayer
And she compels you, you can't help it
Drop down to your knees
She's in your mind and you are blinded
And she put a spell on you

She's nobodys angel
She's nobodys
Nobodys angel

She's nobodys angel
She's nobodys
Nobodys angel

Fever fever leave my heart alone
Teardrops down my face
ii curse the day when I was born

Fever fever leave my heart alone
Teardrops down my face
I curse the day when I was born

Lost inside her grace
And you surrender sweet surrender
Bound within a sigh
She takes you under, keeps you under
And she puts a spell on you

She's nobodys angel
She's nobodys
Nobodys angel

She's nobodys angel
She's nobodys
Nobodys angel

Fever fever leave my heart alone
Teardrops down my face
I curse the day when I was born

Fever fever leave my heart alone
Teardrops down my face
I curse the day when I was born

Still my fading heart beats for your love
Still my fading heart beats for love

Fever fever leave my heart alone
Teardrops down my face
I curse the day when I was born

Fever fever leave my heart alone
Teardrops down my face
I curse the day when I was born

Fever fever leave my heart alone
Teardrops down my face

I curse the day when I was born

Fever fever leave my heart alone

Teardrops down my face

I curse the day when I was born
