

Play Me In Stereo

Melody Club

She's got me high around the clock tonight
And she's always on to me
And we'll be perfect just like they are
And she breathes down over me

She's got me high in the clouds tonight
In a satellite above
Where we'll be perfect just like we are
And she takes me on

And she goes
And she moves around
In my part of town
And she knows
And she stays around
In my part of town

And we'll go lovechock
Give me your lovechock
Hanging around for a lovechock
I can see she's on to me for a lovechock
