

## Winterland

Melody Club

wide awake  
alone i ache  
itrs nothing but a wasted day  
irm wide awake

i let you go  
oh so slow  
itrs just another heartache  
oh so slow

irve been walking through a winterland  
warm me with the touch of your hand  
you walked out on me yeah, you walked out on me  
and love isnrt all that i want it to be  
youre walking away yeah, youre walking away  
slowly you turn now, you stop and say hey  
and the winter inside me is going to stay

time stands still  
with time to kill  
itrs nothing but a wasted day  
time stands still
