

It Can't Be Over

Melody Fall

There's the hope that never dies for love
And what a friendly name
Cause it never turns its back behind
You did it once again
Now don't tell me why or justify
just give me one last choice
'Cause I need your bright light
When i lose the road

Hold my hand you'll see
(it can't be over now, it can't be over now)
Nothing ends like this
(it can't be over now, it can't be over now)
We fade away
(it can't be over now, it can't be over now)
We fade away

Paint a picture crashes to the ground
The colours seem to fade
When the other part to rearrange
Is staring at your eyes
You tried to deny you pass me by
In a black and white cold night
Cause I need your bright light
It makes me feel alive

Hold my hand you'll see
(it can't be over now, it can't be over now)
Nothing ends like this
(it can't be over now, it can't be over now)
We fade away
(it can't be over now, it can't be over now)
We fade away

I can't paint my life without you

Hold my hand you'll see
(it can't be over now, it can't be over now)
Nothing ends like this
(it can't be over now, it can't be over now)
We fade away
(it can't be over now, it can't be over now)
We fade away

I can't paint my life without you
