

## Don't Misunderstand

Melody Gardot

I'm okay how you come and go  
I don't mind if you ebb and flow  
River bound or a river stream  
I don't question what the future means

I said now...mmmm  
...I want you...

Who we are is what we got  
whether fire or flame or not  
Take me in under your embrace  
I will be your kindlin' place

I said now...mmmm  
...I want you...

We are who we are  
who we are  
We do what we can  
when we can  
We only have gotten this far now  
so don't misunderstand  
don't misunderstand  
who I am

Come on baby  
don't misunderstand me now  
Come on baby  
don't misunderstand  
no, go on take it like a man  
don't you go misunderstand
