

Sunset in the Blue

Melody Gardot

When I think back on all the roads
We've traveled on
It makes me smile
Although I do tend to forget
Your cadent eyes
After a while

Another dream begins to fray
So my love another day
Another sun sets in the blue
Oh my love what can we do
To stop it all

When I look back on all the tears
That you've shed
I wonder why
You can't consider all the years
That lie ahead of you and I

Another dream begins to fray
So my love another day
Another sun sets in the blue
Oh my love what can we do
To stop it all

Another dream begins to die
So my love another time
Another sun sets in the blue
So my love what can we do
To stop it all
