

## Daisy

### Melody's Echo Chamber

Time just passed so fast as you walked at the door  
Those feelings never left the inside  
It's all exploded in the undertone  
Silence and tears  
Orion looks at the shore

Daisy rising to the sun  
Daisy rising to the sun  
Daisy rising to the sun  
Daisy rising to the sun

My life just passed so fast  
As you walked out my door  
Some feelings never left me inside  
It all exploded in the underground  
Silence and tears  
Orion looks at the shore

Daisy walks into the sun  
Daisy walks into the sun  
Daisy walks into the sun  
Daisy walks into the sun
