

Unfold

Melody's Echo Chamber

Needs to unfold
And you want your freedom
Is it your fault?
Never cared before

How long until the end?
How long until the end?
How long until the end?
How long until the end?

It had to unfold
Now you have your freedom
It's hard when you seem so strong
'Cause I'm not, I never felt so low

How long until we're friends?
How long until we're friends?
How long until we're friends?
How long?
