

California Uber Alles

Melvins

I am Governor Schwarzenegger
Pretty soon I'll be dictator
When they make me president

Democracy is going away
"Hasta la vista, baby"
I willkommen all of you
"Kindergarten Cop" in every school
Or I will terminate you

California über alles
California über alles
Über alles, California
Über alles, California

Enron will control you
Life forsakes the recall coup
Steroids for the master race
So you all can have my face
Close your eyes, can't happen here
Bush and Cheney are still near
Third Reich will come back you say
Now that Fox News has their way
Can I cup your titties today?

California über alles
California über alles
Über alles, California
Über alles, California

It still feels like 2004
Knock-knock at your bedroom door
It's the Homeland Security Police
You're a terrorist and so is your niece
Drag you secretly to a camp
Where we keep all the girly men
Don't you worry, it's for a cause
Feeling how our breath is close[?]

Die on your feet off Uranium gas
North Korea or Iraq
Ran you over with my Hummer baby
When you mess with Schwarzenegger
And all the money that's making him bigger

California über alles
California über alles
Über alles, California
Über alles, California
