

## Hospital Up

Melvins

Where's my medic  
Oh god, you'd like to give me  
What they told me  
They said try not to worry  
Or call me  
Magic number  
They only walk in my dreams  
And doubt me

Giant pain cracks  
Suited terror fills me anyway

Where's my medic  
Oh god, you'd like to give me  
What they told me  
They said try not to worry  
Or call me  
Magic number  
They only walk without me  
And doubt me

Hey remember  
It won't be how you found it  
Hey forget it  
It won't be what you wanted

Hey remember  
It won't be how you found it  
Hey forget it  
It won't be what you wanted
