

It Won't Or It Might

Melvins

You'll have a wonderful time
Love birds in a cherry tree
You need to

Hardly pretend you're not here
Take a hit off of the fume
Always gone

You'll have a wonderful time
Love birds in a cherry tree
You need to

It really works for her
Nothing was real
Sometimes she speaks for me
More than he did

He wouldn't have this problem
Shut up and get out
Threaten to the main land
To plow the ground
Just to take for instance
If I had more time
She went to the airport
We know how tough he is
Evil and demonic
Slave master
Hey you pretty girl
Make up for the past
