

Coming

Memento

He's comin', he's comin', he's comin'
He's comin', he's comin', he's comin'

Countin' on some one on one with you
Connecting all the dots, now guess who?
Invisible but with you in the room
Just know that I'm comin', I'm comin', I'm comin' for you

There is no me and you
You are still dead to me
There is no me and you
You are still dead to me
There is no me and you
You are still dead to me
There is no me and you

He's comin', he's comin', he's comin'
He's comin', he's comin', he's comin'

The shivers and the tingles in your spine
The dirty pins and needles in your eyes
Look into the keyhole of your mind
Just know that he's comin', he's comin', he's comin' for you

There is no me and you
You are still dead to me
There is no me and you
You are still dead to me
There is no me and you
You are still dead to me
There is no me and you
You and me

I forgot to forgive, I'm forgetting to live
I forgot to forgive you, yeah

Coming out of hibernation
Coming out of hibernation
Coming out of hibernation
Coming out of hibernation

He's comin', he's comin', he's comin' out
I'm comin', I'm comin', I'm comin' out
He's comin', he's comin', he's comin' out
I'm comin', I'm comin', I'm comin'
