

## 2 Corinthians 5:7

Memphis Depay

Fuck it, I got the city back on the map  
They wanna know where the lion is, I'm in the jungle where the lions sit  
Young lion in Mufasa's seat, from the dirt now look at me  
I'm in the streets and they fuck with me, from the dirt now look at me, whoa  
h  
Wesh

When I'm in the city it's litty, this lion business is no kidding  
It was all a dream like bigger reality, hear me, I'm living this life it's not pretty  
Feeling like 50, many men hate on me, I got Mercedes on me I'm not trippin  
I got the stadium screamin' my name and after the game we making sure that we winning

Hold up, wait a minute  
I see a beast when I face the mirror  
I got my chef and she making dinner (dinner, dinner)  
Hold up, wait a second  
I'm drippin in the latest fashion  
But winner mentality is a habit  
I got a different plan  
I'm not your middle man  
I just got rich again  
But I call the president like woah  
I need a bigger bag  
They better listen to what I said, like wow  
I became blind and deaf  
I cannot look at what Twitter says, like nah

Fuck it, I got the city back on the map  
They wanna know where the lion is, I'm in the jungle where the lions sit  
Young lion in Mufasa's seat, from the dirt now look at me

Hold up, so I got the Media trippin'  
They taking shots but missing  
Feeling like Scottie Pippen, when I'm balling it's me in business  
Men on fire like Denzel  
When I fall I stand up  
They better not tryna tackle me, free kicks I let off  
Don't tryna settle for less, I need to finish this lap  
After that I take a nap, tell the haters kiss my ass  
Tell a hater I got alligator, toilet paper I wipe my ass off  
With QP signing checks off, I'm celebrating with this mask on
