

Body Like You

Memphis Depay

Ain't no body like you, imagine what that body might do
So much baby, what I'm gonna do without you
Nothing is the same without you
Ain't no body like you, imagine what that body might do
So much baby, what I'm gonna do without you
Nothing is the same without you

Let me get fly with you, I'm in paradise with you, babe
I will die for you, my life I'd live with you
Got me feeling like a star when I'm with you
I had to work so hard to tryna get you
Finally I got you in my car with me
This girl's from the past let me heal your heart baby
Let me heal your heart, let me be the one
I can see what's wrong, so let me go to war for you

Ain't no body like you, imagine what that body might do
So much baby, what I'm gonna do without you
Nothing is the same without you
Ain't no body like you, imagine what that body might do
So much baby, what I'm gonna do without you
Nothing is the same without you

Quando eu te vi chegar
Coração quase para
E sem precisar falar
Trouxe calma na alma
Tentei explicar mas faltam palavras não muda
Eu juro por tudo que o seu abraço tem
Sabor de casa, bem
Não tem ninguém que me faz tão bem
Não tem, meu bem, alguém que me faz tão bem

Ain't no body like you, imagine what that body might do
So much baby, what I'm gonna do without you
Nothing is the same without you
Ain't no body like you, imagine what that body might do
So much baby, what I'm gonna do without you
Nothing is the same without you
