

Fall Back

Memphis Depay

Wizard Beats

Oh yeah

Yeah

I'm not the type of brother to play with
See a lot of people acting like... uh, oh yeah
All ball players only like haters
We the Young Kings of this generation, oh yeah
Yeah, oh yeah
Talking 'bout themselves like they're all that
Yeah, oh yeah
We used to have bills, now it's all cash
Yeah, now it's all cash
1.5 on jewellery bought it all back
Oh Lord, let me fall back
'Cause they customer special when I call them, oh yeah

Yeah, I know they love what I do
Still coming back to my hood
Still being reckless when I shoot
Feel my fans, how I ball, no fault, no secret how I move
So I keep it in your face, I keep it a hundred
And there's blue when I'm in States
All she does and sing when I'm opening the gate
Then she see them cars and the stars in the wave
Nusret Patek with the diamonds in her face
Money fakes your confidence, we different in the wa-a-ay
I'm on my wave, calling my Uber, that's a PJ
It's a private jet, I mean, these days
I don't even celebrate my b-day
We too busy working and money when I'm on my b-days
Got a black bitch, she ain't tryna leave me
Said she got my back but disappeared when I need it

I'm not the type of brother to play with
See a lot of people acting like... uh, oh yeah
All ball players only like haters
We the Young Kings of this generation, oh yeah
Yeah, oh yeah
Talking 'bout themselves like they're all that
Yeah, oh yeah
We used to have bills, now it's all cash
Yeah, now it's all cash
1.5 on jewellery bought it all back
Oh Lord, let me fall back
'Cause they customer special when I call them, oh yeah

I'm here four seasons, so four seasons
Making money and we stacking it up in to the ceiling
Don't bother me when I'm eating (Uh, uh)
Now she follows me, she catching feelings (Ha, ha)
I'm in my old hood kicking it with my dogs
You still remember when we saw our future was so dark
We used to play ball in the park, they put my brother in a box
You don't wanna talk, you self finding a squad
I just bought a new car 'cause I felt like it (Sku, sku, sku)
I know you like me, don't try to hide it (Oe, oe, oe)

Still we connecting with them pirates
Despite getting no violence, at least they trying
More money, we could buy islands
All my kings smiling, got the heat, no eyeing
I got Charles Blues on my seat, no lying
King of the jungle, shit, young lion

I'm not the type of brother to play with
See a lot of people acting like... uh, oh yeah
All ball players only like haters
We the Young Kings of this generation, oh yeah
Yeah, oh yeah
Talking 'bout themselves like they're all that
Yeah, oh yeah
We used to have bills, now it's all cash
Yeah, now it's all cash
1.5 on jewellery bought it all back
Oh Lord, let me fall back
'Cause they customer special when I call them, oh yeah

I'ma fly to Dubai, I don't look, I just buy
Money up like swipe (Swipe), swipe the girls on the right
'Cause I really got no time, one million in nine days
Met haters on my pace, summer time Miami outlay
Young King getting paid
She will fall in love when you put diamonds in her face
The love that I get is not the love that I gave
Low love popped off on a yard on flagey
Multimillionaire, 20 was the age
I can feel it calling in the air, they want me on stage
I can tell life is not really fair, I was in the rave
Celebrities all on my DM asking for a date

I don't really care, they all looking the same
Going H.A.M. when I went back, Dave and I am King
I've been walking strapped, that's the Bible in my back
Peace in my head, I'm only going back and forth when I'm on a jet
That's real talk, I'm a real dog
See me in Bogota with mamacitas
I'll be saving people's life, call me Dida
And that's real life shit, no FIFA
No games, I'm still the same, I'm a leader
Look at my young king, just in the Bible, no Piebe
I put all the ice on the cross, no Jesus
And I got all the money on me but I don't need it
I keep all the faith in my body, best believe it
Now they doing deed 'cause they see
Bless to those who didn't but yet believe
Ms in the bank but yet to be
