

Heavy Stepper

Memphis Depay

Arra
Hmm, uh
Big steppers
You dig, ace

Whoah, how do I feel?
Heavy stepper got track on my heels
Signed a new deal
Now she want ice, shawty chill
I got a mill
Moses in debt so I paid the bills
Whatever was left, pull back in the back
Defacing the crib

It is what it is
You live and you learn, so I tell these kids
Listen to this, you get what you earn, the problem with Earth
The Bezel baby get your night wish
Frimbruleys, then go shopping
It doesn't mean I got the block twist
The world need me, I'm a Young King

The world need us we Young Kings
It feels better when we all win
We rolling, windows open
Wrist froze and the blocks lit
Front rowing, swim blocking
Shit's extremely beneficial, oh you on the folk issue
Baby doll, go through the dishes, Bloody Mary, uh
I just broke the mirror then I walked off
She was smelling fishy
Paparazzi lookin' for me in the city
I'm a fly nigga, I'm a Disney figure
A lot of people that are really with me
They all know my name is Kylie Grizzly
It's kinda risky
The nigga handsome
The nigga lightskinned
The nigga athlete

How do I feel?
Heavy stepper got track on my heels
Signed a new deal
Now she want ice, shawty chill
I got a mill
Moses in debt so I paid the bills
Whatever was left, pull back in the back
Defacing the crib

It is what it is
You live and you learn, so I tell these kids
Listen to this, got back in the back
Defacing the crib
The Bezel baby get your night wish
The world need me, I'm a Young King
It is what it is, pull back in the back
Defacing the crib

Go back in the bank and invest
Remember my life was a mess
Now we cruising Rolie S
Middle finger in the air, we flexin'
I'm relaxing, you should do the same
Buy a lane nigga, fuck a chain
I got it all and I don't complain
I got it all and I don't complain
Shit
I got the rims, got the vision poppin'
We don't play games, we get things locked in
Early morning clocking, we need all options
Y'all rocking with the realist, and y'all know what the deal is
My head full with ideas
Tryna find a way to feed my people

How do I feel?
Heavy stepper got track on my heels
Signed a new deal
Now she want ice, shawty chill
I got a mill
Moses in debt so I paid the bills
Whatever was left, pull back in the back
Defacing the crib

It is what it is
You live and you learn, so I tell these kids
Listen to this, got back in the back
Defacing the crib
The Bezel baby get your night wish
The world need me, I'm a Young King
It is what it is, pull back in the back
Defacing the crib
