

Hell Is Empty

Memphis May Fire

Can't escape what is reality
Everything we knew is upside down
It's just a shell of what it used to be
And I'm afraid that we can't turn around

There is nowhere safe
Was it us that opened the gates
We were blind to the blame
Now the end is just a breath away

Hell is empty and Heaven is near
Prayers turned to pleading and faith into fear
The evil below
Now above they appear
Hell is empty
The devil is here

There's no future in what's left for us
Say goodbye to everything you once loved
I see a fire in the sky above
Ashes to ashes we'll return to dust

There is nowhere safe
Was it us that opened the gates
We were blind to the blame
We dug ourselves into an early grave

Hell is empty and Heaven is near
Prayers turned to pleading and faith into fear
The evil below
Now above they appear
Hell is empty

There's no fork
There's no horns
This is war
We've been warned
The evil below
Now above they appear
Hell is empty
The Devil is here

He's here

Hell is empty and Heaven is near
Prayers turned to pleading and faith into fear
The evil below
Now above they appear
Hell is empty
Hell is empty and Heaven is near
Prayers turned to pleading and faith into fear
The evil below
Now above they appear
Hell is empty

There's no fork
There's no horns

This is war
We've been warned
The evil below
Now above they appear
Hell is empty
The Devil is here

There's no fork
There's no horns
This is war
The Devil is here
