

Left For Dead

Memphis May Fire

Left for dead

Always knew that love was blind
But much to my surprise
The veil over my eyes
Was all a lie
I can see now looking back
The water in the cracks
I'm sinking into black
It was all a lie
I caught every stone you'd throw
You kept me feeling low
There's nowhere left to go
Now I see the lies

All the signs I missed
Led me straight to this
Everything I ever wanted
But you don't exist
Now I can't forget
All that I regret
You pulled in, pushed me out
Now I'm left for dead

When all is said and done
I know you're not the one
And everything inside of me
Was saying I should run
You could take my breath away
With your pleasure and your pain
But you can never take back
The fact you can't back the things you say

All the signs I missed
Led me straight to this
Everything I ever wanted
But you don't exist
Now I can't forget
All that I regret
You pulled in, pushed me out
Now I'm left for dead

I feel so sorry for the next one in line
They'll never know that you're a skeleton without a spine
No spine

All the signs I missed
Led me straight to this

All the signs I missed
Led me straight to this
Everything I ever wanted
But you don't exist
Now I can't forget
All that I regret
You pulled in, pushed me out
Now I'm left for dead

All the signs I missed
Led me straight to this
Now I can't forget
You pull me in, push me out
Now I'm left for dead
Now I'm left for dead

They'll never know that you're a skeleton without a spine
