## Memphis May Fire

Chances to move mountains are few and far between,  
But only unseen by those who choose them to be  
Live every day like it's your last chance to be heard and seen,  
Because the good die young and the great change the course of history

Stop blending in and start speaking out!  
You'll never know what you can do if you don't try now  
Lift up your eyes discouraged one  
Keep moving forward until your battles have been won

They say you were created to do great things,  
But words only come to life when you believe  
Stop blending in  
Start speaking out!  
Don't miss your opportunity

Do you have the courage to follow your heart?  
Your life could be over before you ever had a chance to start

Take what you can get while you can get it  
And don't let anybody stand in your way  
If you've got what it takes, make them believe it  
They need to hear you from a mile away!

They say you were created to do great things,  
But words only come to life when you believe  
Stop blending in  
Start speaking out!  
Don't miss your opportunity

Lift up your eyes discouraged one.  
When you feel like giving up,  
When they say it can't be done  
It's up to you to show them why they're wrong

Lift up your eyes discouraged one.  
When you feel like giving up,  
When they say it can't be done  
It's up to you to show them why they're wrong

Lift up your eyes discouraged one.  
When you feel like giving up,  
When they say it can't be done  
Show them they're wrong!

What you do is up to you.  
Follow your heart and you will never lose  
They say you were created to do great things,  
But words only come to life when you believe!

You were created to do great things,  
But words only come to life when you believe  
Stop blending in  
Start speaking out!  
Don't miss your opportunity

Reach for the sky!

Nothing's impossible when you realize the strength is inside  
Embrace the struggle when it's all you can see  
Words only come to life when you believe
