

Live Another Day

Memphis May Fire

I've been broken, I've been beat down
So full of shame and doubt
Been from the mountain, down to rock bottom
More times than I can count

But we were born to be great
Don't just throw it away

You've been hiding this pain for so long
Wake up get off the ground
There is a purpose in all the madness
But you gotta fight to find out

Cause we were born to be great
Don't just throw it away

Live another day
We were born to be great
Live another day
Don't just throw it away
Live another day

There's a meaning in the madness
I promise one day you'll get past this
So don't give up on second chances
Cause there's a meaning in the madness

Listen
The hard times and the pain
Is what makes our story great
So get back up again
And live another day
Fight to feel alive
To be the voice of change
Together we will rise
And live another day

Live another day
We were born to be great
Live another day
Don't just throw it away
Live another day
We were born to be great
Live another day
Don't just throw it away
Live another day
