

# Paralyzed

## Memphis May Fire

Every day's a vicious cycle and I'm stuck on repeat  
I've been over-medicating  
Waiting, praying for peace  
I guess it's death or deliverance  
But it's not up to me  
Because the devil's dealing cards  
And he's playing for keeps

Night after night  
Hear my soul keep saying  
Fight for your life  
But my will feels wasted

Heart is racing  
Body shaking  
No escaping  
Think I'm...

Paralyzed  
Out of body and out of mind  
I'm lost in the fight or flight  
Terrified  
Think that I might be outta time  
Now I need a lifeline  
I'm calling  
Somebody please make me believe I can breathe  
I try to scream  
Is this a dream  
Or am I paralyzed

Heart is racing  
Body shaking  
No escaping  
Think I'm...

Heart is racing  
Body shaking  
No escaping  
Think I'm...

Wish I could say that it's denial  
That it's not what it seems  
Starts with dopamine deficiency and ends in defeat  
Adrenaline kicks in once again  
Never gonna win  
It depletes me  
Then anxiety sets in and pretends that I can't beat this disease  
I'm still here

Night after night  
Hear my soul keep saying  
Fight for your life  
But my will feels wasted  
Night after night  
Oh, I'm losing patience  
Fight for your life  
It's the war I'm waging

Paralyzed  
Out of body and out of mind  
I'm lost in the fight or flight  
Terrified  
Think that I might be outta time  
Now I need a lifeline  
I'm calling  
Somebody please make me believe I can breathe  
I try to scream  
Is this a dream  
Or am I paralyzed

Heart is racing  
Body shaking  
No escaping  
Think I'm...

Pinned down  
Tied up  
I've sealed my fate  
The perfect murder  
With my own blade

Paralyzed  
Out of body and out of mind  
I'm lost in the fight or flight  
Terrified  
Think that I might be outta time  
Now I need a lifeline  
I'm calling  
Somebody please make me believe I can breathe  
I try to scream  
Is this a dream  
Or am I paralyzed

Heart is racing  
Body shaking  
No escaping  
Think I'm...

Heart is racing  
Body shaking  
No escaping  
Think I'm...

(Paralyzed)
