

Shapeshifter

Memphis May Fire

Daylight deceiver and a thief in the dark
A picture perfect people pleaser
That's just the start
Which version of yourself do you see in the mirror
It's been a long time coming
Never been any clearer

You'll lose your grip
I'll watch you slip
No form to fit
Fake it

Look me in the eyes
Like I believe the lies
You'll lose your grip
I'll watch you slip
Master of disguise
Identity denied
No form to fit
Fake it
Shape shift

What's it like living a lie
Is it all what you want
Or is it all that you've got
Tell me
What's it like on the inside
Which one of your personalities gets to sleep at night

You'll lose your grip
I'll watch you slip
No form to fit
Fake it

Look me in the eyes
Like I believe the lies
You'll lose your grip
I'll watch you slip
Master of disguise
Identity denied
No form to fit
Fake it
Shape shift

There'll be blank headstone when you're laid in the ground
Put a face to the fiction
Who's the first to go down
Point 'em out
Point 'em out
There'll be blank headstone when you're laid in the ground
Put a face to the fiction
Who's the first to go down
There'll be blank headstone when you're laid in the ground
Put a face to the fiction
Who's the first to go down

Look me in the eyes

Like I believe the lies
You'll lose your grip
I'll watch you slip
Master of disguise
Identity denied
No form to fit
