

## Versus

## Memphis May Fire

I don't wanna do this  
You don't want excuses  
And who knows what the truth is  
Guess it's useless

When I lay down my weapon  
And you sharpen yours  
Think you're twisting the words  
This is worth fighting for  
I'll take off all my armor  
If you drop the sword  
We could leave it all on the floor

Yeah, I don't see why  
We can't stop it all before the worst begins  
If you only knew  
When somebody starts a war that never ends  
Nobody wins
