

## Hot Stuff

Memphis Minnie

I decided I wouldn't marry no more  
Now I'm catching hell everywhere I go  
Hot stuff, hot stuff  
Well its hot stuff here and its everywhere I go

I been set in a beer tavern playing the blues one night  
A man walked up wanted to take my life  
Hotty hot stuff, hot stuff  
Well its hot stuff here and its everywhere I go

I was standing at the bar drinking a stein of beer  
A woman walked in with a great big cheer  
Hot stuff, hot stuff  
Well its hot stuff here and its everywhere I go

When the law walked in I started to run  
But up he come with his great big gun  
Hot stuff, hot stuff  
Well its hot stuff here and its everywhere I go

I went down to the butcher to get me a piece of meat  
He looked like he could knock me off my feet  
Hotty hot stuff, hot stuff  
Well its hot stuff here and its everywhere I go
