

## Fourty-Four Blues

Memphis Slim

Lord I walked all night long with my forty four in my hand  
Lord I walked all night long with my forty four in my hand

I was looking for my woman and I found her with another man

Tonight my baby said she heard the forty four whistle blow  
Lord, my baby said she heard the forty four whistle blow

Well and it sounds just like ain't gonna blow that whistle no more

Lord I've got a little cabin and in my cabin I own a forty four

When I wake up every morning, the world's knocking on my door
