

Air

Men I Trust

I need some air
Vampire town
No one out

You were there and cold
Didn't smoke
Made it count

So I thought you could come over 'mine sometime
Our loneliness now gone
So I thought you could come over 'mine sometime
Have we ever been old friends?

I didn't think
Late in time
We'd meet again

You looked a bit old
In this cold
You stood out

So I thought you could come over 'mine sometime
Our loneliness now gone
So I thought you could come over 'mine sometime
Have we ever been old friends?
