

Come Back Down

Men I Trust

Where are you gone this time?
Will you just come back down, come back down?
It's easier said than done
Things will turn out somehow, come back down

Cradle me more, hold on to me
Say something sweet "wholeheartedly"
I feel so tired, won't ask if true
You be my rest, say something new

The room echoes high and bare
The man you'll be someday, come back down, mmm
Come back down, stay around
Fall like a sigh, stay by my side

Cradle me more, hold on to me
Say something sweet "wholeheartedly"
I feel so tired, won't ask if true
You be my rest, say something new
Cradle me more, hold on to me
(Cradle me more)
Say something sweet "wholeheartedly"
I feel so tired, won't ask if true
(Cradle me more)
You be my rest, say something new

Hold on to me
And comfort me
Hold on to me
And comfort me
