

Ring Of Past

Men I Trust

Spin in a ring of past
I dive through memories that are locked around thee
In blind days, when I'm lost
The dreams that we cherished foremost soar through me

I'll always love you
Forever with you
Reliving youth through
You

Spin in a ring of past
Solace in believing that we will repeat
What might be and what's lost
The thought of the one I loved most brings me heat

I'll always love you
Forever with you
Reliving youth through
You

I'll always love you
Forever with you
Reliving youth through
You
