

# Antarctica

## Men Without Hats

Antarctica - Antarctica  
Antarctica - Antarctica

Ice age is here, right in your town  
Antarctica, look what you've done

And I, I feel like I've cheated your scheme  
And I, I feel like you really know what I mean

Nightfall's heartbeat, the street's in a mess  
On reflector, the beach is endless

And I, I feel like I've cheated your scheme  
And I, I feel like you really know what I mean

It's my turn - It's my turn

Antarctica - Antarctica

No day, no night, and always the sound  
Ice pressure  
It's me that's found

And I, I feel like I'm really part of your scene  
And I, I feel like you know what I mean

Pictures moving, and always the whirls  
Antarctica, where are you now

And I, I feel like I'm really part of your scheme  
And I, I feel like you're losing your dream

Antarctica - Antarctica  
Antarctica - Antarctica

And I, I feel like you know what I mean  
And I, I feel like I'm really lost in your seam

It's my turn - It's my turn  
It's my turn - It's my turn  
It's my turn - It's my turn
