

If You Try

Men Without Hats

Tell me that I'm dreaming
Correct me if I'm wrong
Life is an illusion
We known it all along
They say that there's a reason
For things to be this way

But I've been losing sleep
Over things they say

And if you try
It'll vanish right before your eyes
If you try
Love'll light a fire in the sky
If you try

Tell me that I'm dreaming
And this isn't for real
It's all a simulation
Holographic for the film
Tell me all your secrets
Without uttering a word

'Cause I've been losing sleep
Over things I've heard

And if you try
It'll vanish right before your eyes
If you try
Love'll light a fire in the sky
If you try

Tell me that I'm dreaming
And this is all a lie
We're living in a movie
Where the heroes never die
And just like in a movie
And when the lovers kiss

Well, I've been losing sleep
Over things like this

And if you try
It'll vanish right before your eyes
If you try
Love'll light a fire in the sky
If you try
It'll disappear without a fight
If you try
Love'll conquer everything inside
If you try
You can make it
If you try
You can make it
If you try
You can make it
If you try

You can make it

Tell me that I'm dreaming
