

Living in China

Men Without Hats

They got the red book, they got the new look
All the little people that are living in China
They got the answers to all the questions
All the little people that are living in China

The solution is revolution
For all of the little people that are living in China
They got ping pong egg foo yung
For all the little people that are living in China

What would Chairman Mao say
If he knew what they're doing to his wife today
What did China do? She ordered out for submarines
Instead of Chinese food

China fields of rice, modern man
No longer evil, he's a paradise
What did the Chairman want?
A great big wall they could all watch orientals on

They got the red book, they got the new look
The little people that are living in China
They got the answers to all the questions
The little people that are living in China

The solution is revolution
For all the little people that are living in China
They got ping pong egg foo yung
All the little people that are living in China

What would chairman Mao say
If he knew what his people think of him today
Revolution is out of hand
The gang of four, trying to make it as a western band

China, what do you need?
You've got everything from your scruffy head to dirty feet
China you want to dance
You're wearing makeup and listening to Adam and the Ants

They got the new look, they got the red book
All the little people that are living in China
They got the answers to all the questions
All the little people that are living in China

The solution is revolution
For all the little people that are living in China
They got ping pong egg foo yung
The little people that are living in China

The solution is revolution
They got the answers to all the questions
All the little people that are living in China
China, living in China
China, living in China
China, living in China
