

The Love Inside Your Heart

Men Without Hats

Here we stand before the future
Deep into the darkness delves
Solemn in our quest for reason
Truth will save us from ourselves

Distant journeys still remind us
In the most mysterious ways
The beauty of our love will guide us
Heaven helps the one who prays

All I need
All I want
All I breathe
Is the love inside your heart
All I need
All I want
All I see
Is the love inside your heart
Just the love inside your heart

Here we stand before the future
Age of wonders up ahead
The story's paid us back in kind
Where freedom lies I'll make my bed

All I need
All I want
All I breathe
Is the love inside your heart
All I need
All I want
I concede
To the love inside your heart
The love inside your heart

All I need
All I want
All I breathe
Is the love inside your heart
All I need
All I want
All I see
Is the love inside your heart

All I need
All I want
