

Beneath a Burning Sky

Mendeed

Holocaust, in flames of fear burns fantasy
Liberty is just another masqueraded lie
Break the world, set it all ablaze
With an iron fist you lead the way
Conquering the lives of those
Who are on their knees
You preach your words of wisdom
Heartfelt, a peaceful Saviour
You've sentenced us to death
Beneath a burning sky
Burning sky
As you dictate
Your words encroached into our minds
A thousand virtues betrayed
Guilty of waiting we bond together
Born to suffer, only those ill fated eyes
Liberate our minds
Behold the sign, you are killing us
Behold the sign
In a world of hate with bodies soaked in blood
We are a living tragedy
Within this madness we must unite
Sever the chains of deceit
And rise against the new world's impunity
Holocaust, in flames of fear
Liberty's a lie
Conquering the lives of those
Who are on their knees
You preach your words of wisdom
Heartfelt, a peaceful Saviour
You've sentenced us to death
Beneath a burning sky, beneath a burning sky
Burning sky
